

## TRANSFORM SCATTERED AS-BUILT DRAWINGS, MODELS, AND DOCUMENTS...

Key venue design, construction, and operations information is often scattered throughout fragmented locations and people, making it unusable for operational teams.

## ...INTO A WORKING ASSET IN ONE SECURE, SEARCHABLE PLACE

Symetri assesses & organizes your venue's drawings, models, and documents into the Digital Plan Room - a single, secure digital space that makes key information easy to find and use across the organization.

## KEY BENEFITS

- Fast access to data: Quickly locate the right information to cut downtime and accelerate approvals, event planning, and facilities decisions.
- Easy, aligned sharing: Share information internally & externally with facility operations, sponsor activation, trades, event operations, and any other stakeholders who need a single, always-current view of the venue.
- Smarter use of facility information: Unlock insights that support new technology upgrades, premium concepts, and other revenue-driving initiatives.

## LOOKING AHEAD

The Digital Plan Room can be a standalone data management solution - but is also the foundation for next-gen operational and experiential innovation in sports & entertainment.
