

TRANSFORM SCATTERED AS-BUILT DRAWINGS, MODELS, AND DOCUMENTS...

Key venue design, construction, and operations information is often scattered throughout fragmented locations and people, making it unusable for operational teams.

...INTO A WORKING ASSET IN ONE SECURE, SEARCHABLE PLACE

The Digital Plan Room assesses & organizes your venue's drawings, models, and documents into a single, secure digital space - making key information easy to find and use across the organization.

KEY BENEFITS

- Fast access to data: Quickly locate the right information to cut downtime and accelerate approvals, event planning, and facilities decisions.
- Easy, aligned sharing: Keep partners, planners, and operations on the same page with a single, always-current view of the venue
- Smarter use of facility information: Unlock insights that support new technology upgrades, premium concepts, and other revenue-driving initiatives.

NEXT STEPS

The Digital Plan Room can be a standalone data management solution - but is also the foundation for next-gen operational and experiential innovation in sports & entertainment.
